

First B.H.M.S. (New) (2015) Examination, (Phase - III) Winter - 2021

**ANATOMY - I****(BHMS - 2015 Syllabus is Applicable to BHMS (New) Students)**

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) All questions are **compulsory**.
  - 4) The number to the **right** indicates full marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for section B.

**SECTION - B (SAQ) (LAQ)**

- 2) Short Answer Question (Solve any 4 out of 6) : [4 × 5 = 20]
- a) Placenta
  - b) Classification of Joints.
  - c) Axilla.
  - d) Branches of Axillary Artery.
  - e) Pronator teres.
  - f) Ulnar Nerve in the Palm.
- 3) Short Answer Question (Solve any 4 out of 6) : [4 × 5 = 20]
- a) C.S.F.
  - b) Internal Capsule.
  - c) Lateral Ventricle.
  - d) Corpus Callosum.
  - e) Optic Nerve.
  - f) Pons.

DAB01NNNN101-

4) Long Answer Question (Solve any 2 out of 4) :

[2 × 10 = 20]

a) Describe in detail Anatomy of parotid gland.

OR Remove

b) Describe Anatomy of Lateral Wall of Nose.

c) Describe in detail Anatomy of Middle Ear.

OR Remove

d) Describe the Muscles of Mastication in detail.

Long Answer Question (Any one from Q. No. 5, 6 and 7) :

[1 × 20 = 20]

5. Describe in detail the Anatomy of Elbow Joint.

6. Describe in detail Anatomy of Brachial Plexus.

7. Describe in detail Anatomy of Radial Artery.

- Instructions :**
- 1) Use blue/black ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for Section B.

SECTION - "B" (SAQ) & (LAQ)

2. Short answer question (Solve any 4 out of 6): [4 × 5 = 20]
  - a) Dorsal venous arch of foot
  - b) Histology of stomach
  - c) Histology of Pancreas
  - d) Sciatic Nerve
  - e) Histology of testis
  - f) Sartorius
  
3. Short answer question (Solve any 4 out of 6): [4 × 5 = 20]
  - a) Pericardium
  - b) Openings of Diaphragm
  - c) Thoracic Duct
  - d) Interior of right ventricle
  - e) Posterior mediastinum
  - f) Medial surface of rt lung

**DAB01NNNN101-P-2**

[2 × 10 = 20]

4. Long answer question (Solve any 2 out of 4):

- a) Quadriceps group of muscles
- b) Ischiorectal fossa
- c) Ankle joint
- d) Appendix

Long answer question (Solve any 1 from 5, 6 and 7):

[1 × 20 = 20]

- 5. Describe in detail spleen
- 6. Describe in detail liver
- 7. Uterus

As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 out of 6): [4 × 5 = 20]

- a) Heart sounds
- b) Haemoglobin
- c) Functions of blood
- d) Cardiac output
- e) Functions of Reticulo endothelial system.
- f) Diffusion

3. Short answer questions (Solve any 4 out of 6) : [4 × 5 = 20]

- a) Simple muscle curve
- b) JGA
- c) Nephron
- d) Artificial respiration
- e) Respiratory center
- f) Structure of skin

DAB01NNNN102-P-1

Remove word "OR"

4. Long Answer Questions (Solve any 2 out of 4): [2 × 10 = 20]  
From a, b, c, d.

a) What is ECG? Discuss its different waves and give importance of ECG.

OR

b) Discuss the different Blood groups. Add a note on Erythroblastosis foetalis.

c) Discuss the regulation of body temperature. Add a note on Pyrexia.

OR

d) What is Hypoxia? Discuss its various types and add a note on Altitude hypoxia.

Long Answer Questions (5,6,7) (Solve any 1 out of 3): [1 × 20 = 20]

5. Discuss the different types of WBC with their morphology. Add a note on their functions.

6. Describe the mechanism of Micturition in details.

7. Discuss Oxygen transport in details. Add a note on Dissociation curve for Haemoglobin.

2. Short answer questions (Solve any 4 out of 6):

[4 × 5 = 20]

- a) Balanced Diet.
- b) Action Potential.
- c) Properties of Reflexes.
- d) Beri - Beri.
- e) Vitamin K.
- f) Puberty.

3. Short answer questions (Solve any 4 out of 6): [4 × 5 = 20]

- a) Basal Metabolic Rate.
- b) Functions of Saliva.
- c) Rods and Cones.
- d) Pavlov's pouch.
- e) Functions of Oxytocin.
- f) Action of thyroxin.

4. Long Answer Questions (Solve any 2 out of 4): [2 × 10 = 20]

- a) Describe the mechanism of Accomodation in human eye.

OR

- b) Describe in detail the process of Spermatogenesis.
- c) Describe composition, secretion, functions and regulation of Gastric juice.

OR

- d) Define Hormones. Name Hormones of Anterior Pituitary with functions in brief.

Long Answer Questions (5,6,7) (Solve any 1 out of 3): [1 × 20 = 20]

- 5. What is Synapse. Explain the structure, functions and properties of Synapse.
- 6. Enumerate the hormones of Adrenal Cortex. Describe the regulation of secretion and the physiological function of Gluco-corticosteroids.
- 7. Describe in detail Movements of Stomach.

Third B.H.M.S. (New) Examination (Phase - III) Winter - 2021  
SURGERY AND HOMOEOPATHIC THERAPEUTICS - II  
(Paper - II)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short answer Questions (Solve any 4 Out of 6):

[4 × 5 = 20]

- a) Vincents Angina
- b) Leukoplakia
- c) Ankylosing spondylitis
- d) Etiology of Ca. breast
- e) Deafness
- f) Graves Disease

3. Short answer Questions (Solve any 4 out of 6):

[4 × 5 = 20]

- a) Elbow dislocation.
- b) Ca Stomach
- c) Gingivitis
- d) Vagnial Hydrocele
- e) Nasal polyps
- f) Wax

**DAB01NNNN 301-P2**

4. Long Answer Questions (Solve any 2 out of 4): [2 × 10 = 20]

a) Discuss testicular tumor in detail.

OR

b) Differential diagnosis of pain in RIF.

c) Discuss allergic rhinitis in detail.

OR

d) Discuss # head of femur in details.

Long Answer Questions (5,6,7) (Solve any 1 out of 3): [1 × 20 = 20]

5. Define osteoarthritis, Aetiology clinical features & management of same.

6. Define Adenoids, Aetiology, Clinical features, investigation & treatment.

7. Define peptic ulcer, its types aetiology, clinical feature & management of same.

105 = 2 × 11

**Third B.H.M.S. (New) Examination (Phase-III) Winter - 2021**  
**SURGERY AND HOMOEOPATHIC THERAPEUTICS-III**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. **Short Answer Questions (Solve any 4 Out of 6):** **[4 × 5 = 20]**

- a) Define Goiter. Give indication of Natrum Mur and Spongia for goiter.
- b) Classify hydrocele. give indications of Pulsatilla and Rhododendron in Hydrocele.
- c) Indication of Lycopodium and Sarsaparilla.
- d) Define Dacryocystitis. Give indications of Silicea and Belladonna for same.
- e) Give indications of Calcarea Flour and Ruta in Calcaneal Spur.
- f) Define Mastoiditis. Give indications of Hepar Sulph and Asafoetida in Mastoiditis.

**3. Short answer questions (Solve any 4 Out of 6): [4 × 5 = 20]**

- a) Indications of Secale Cor and Carbo Veg in Raynaud's Disease.
- b) Indications of Coffea Crude and Chamomilla in Odontalgia.
- c) Indications of Medorrhinum and Rhus Tox in Osteoarthritis.
- d) Indications of Ratahnia and Acid Nitricum in Fissure -in-Ano.
- e) Indications of Phytolaca Decandra and Calcarea Carb in Tonsillitis.
- f) Indications of Chelidonium and Ceanothus in Gall Stones.

**4. Long Answer Questions (Solve Any 2 out of 4): [2 × 10 = 20]**

- a) Enumerate causes of Duodenal Ulcer and give indications of Kali bichromicum and Phosphrus.

OR

- b) Write clinical features of Ankylosing Spondylosis. Give indications of Bellis Per and Kali Carb.
- c) Write clinical features of Hordeolum Externum with indications of Silicea and Stpphysagria.

OR

- d) Write aetiology of Deviated Nasal Septum with specific indications of Teucrium Marum Varum and Arsenic Alb in DNS.

**Long Answer Questions (5,6,7) (Solve Any 1 out of 3): [1 × 20 = 20]**

- 5. Describe etiology and Clinical features of Minere's Disease. Give indications of Chenopodium, Bryonia, Cocculus and Conium for same.
- 6. Define Keloid. Enumerate its common sites. Give indications of Thiosinaminum, Thuja, Flouric Acid and Graphitis for keloid.
- 7. Define and classify Haemorrhoids. Give indications of Lachesis, Collinsonia, Hammamelis and Sulphur for same.

Third B.H.M.S. (New) (Paper-I) Examination (Phase - III) Winter - 2021  
OBSTETRICS & GYNAECOLOGY - I

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.

  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for all sections.

2. Short Answer Questions (Solve **any 4** out of 6): **[4 × 5 = 20]**

- a) Indications of forceps delivery.
- b) Septic abortion.
- c) Rh incompatibility.
- d) Implantation.
- e) Breast feeding benefits and contraindications.
- f) Ophthalmia neoantorum.

3. Short Answer Questions (Solve **any 4** Out of 6) : **[4 × 5 = 20]**

- a) Subinvolution of uterus.
- b) Diagnosis of breech pregnancy.
- c) Clinical features and complications of preterm infant.

- d) Intrauterine growth retardation.
- e) Functions of placenta.
- f) Urine pregnancy test.

4. Long Answer Questions 4 (Solve **any 2** out of 4) : [2 × 10 = 20]

- a) Define Diabetes during pregnancy, write its causes, clinical features, investigations, complications and management.

OR

- b) Define Abortions, give its causes, classification and write in detail about second trimester medical termination of pregnancy.
- c) Define Antenatal care, write its aims and objectives and advice in detail.

OR

- d) Define Hydatidiform Mole, give its causes, clinical features, investigations, complications and management.

5. Long Answer Questions (5, 6,7) (Solve **any 1** Out of 3) : [1 × 20 = 20]

- a) Define Toxaemia of Pregnancy, write its causes, clinical features, investigations, complications and management in detail.
- b) Define normal labour, write a note on false labour pains, give the mechanism of normal labour and management in detail.
- c) Define Asphyxia Neonatorum, give its causes, clinical features, complications and management in detail.

3. Short Answer Questions(Solve any 4 Out of 6) :- [4 × 5 = 20]

- a) Give the physical generals of Baryta carb
- b) Give the modalities of Sulphur
- c) Give the mental indications of Cannabis Ind
- d) Give the skin complaints of Nitric Acid
- e) Give the keynote indications of Actea Spicata
- f) Give the Biochemic indications of Natrum phos

**DAB01NNNN402-P1**

4. Long Answer Questions (Solve any 2 Out of 4) :- [2 × 10 = 20]

a) Compare and contrast Pulsatilla and Natrum mur in female complaints.

OR

b) Compare and contrast Cannabis Ind and Hyoscyamus in mind.

c) Compare and contrast Baptisia and Gelsemium in fever.

OR

d) Compare and contrast Spongia and Phytolacca in Glandular affections.

Long Answer Questions (any one from Q. No. 5,6 and 7):- [1×20=20]

5. Give characteristic group indications of the Ophidia group and explain the drug picture of Lachesis.

6. Write the Drug picture of Argentum Metallicum

7. Write in detail the Drug picture of Ammonium Carb.

Fourth B.H.M.S. (New) Examination, (Phase - III) Winter : 2021  
HOMOEOPATHIC MATERIA MEDICA-II

Total Duration : Section A + B = 3 Hours

Section B : Marks : 80

SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) All questions are **compulsory**.
  - 4) The number to the **right** indicates full marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for section B.

2) Short Answer Questions (Solve any 4 out of 6) : [4 × 5 = 20]

- a) Joint affections of Rhododendron.
- b) Therapeutic indications of Sabal serulata.
- c) Skin symptoms of Vinca minor.
- d) Gastrointestinal affections of Aethusa.
- e) Skin of Dulcamara.
- f) Respiratory symptoms of Antim tart.

3) Short Answer Questions (Solve any 4 out of 6) : [4 × 5 = 20]

- a) Guiding indications of Melilotus.
- b) Therapeutic indications of Ocimum sanctum.
- c) Respiratory symptoms of Mephites.
- d) Therapeutic indications of Crategus.
- e) Guiding indications of Condurango.
- f) Skin affections of Cicuta.

4) Long Answer Questions (Solve any 2 out of 4) : [2 × 10 = 20]

a) Compare Respiratory symptoms of *Jonosia asoka* and *Sabadilla*.

OR

b) Compare Throat affections of *Lac can* and *Capsicum*.

c) Compare Headache of *Sanguinaria* and *Spigelia*.

OR

d) Compare *cina child* and *Chamomilla child*.

Long Answer Question (Any one from Q.No. 5, 6, 7) : [1 × 20 = 20]

5) Describe the Drug picture of *Bryonia* in detail.

6) Describe the group symptoms of acid groups and Explain the Drug picture of *Fluoric acid* in detail.

7) Define *Biochemic Remedies* and Explain in detail the Guiding indications of *Ferrum phos*.

Fourth B.H.M.S. (New) (Homoeopathy) Examination, (Phase - III)  
Winter - 2021

ORGANON OF MEDICINE - I (Paper - I)

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) All questions are **compulsory**.
  - 4) The number to the **right** indicates full marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for Section B.

2) **Short Answer Question (Solve any 4 Out of 6) :** [4 × 5 = 20]

- a) Explain "Modus operandii of Homoeopathic cure".
- b) How to investigate Sporadic and Epidemic diseases?
- c) Dynamic influence.
- d) Isopathy?
- e) Unprejudiced observer.
- f) Sporadic diseases.

3) **Short Answer Question (Solve any 4 Out of 6) :** [4 × 5 = 20]

- a) Dynamic surgical diseases.
- b) Mongrel Sect.
- c) Explain- Intermittent fevers endemic in marshy district.

- d) Magnetism.
- e) What are the effects of Antipsoric treatment during pregnancy.
- f) What do you mean by alternating diseases. Explain their Homoeopathic treatment.

**4) Long Answer Question (Solve any 2 Out of 4) : [2 × 10 = 20]**

- a) Describe method of repetition of doses of medicine as stated by Dr. Hahnemann.
- b) How to recognize and treat the mental diseases of doubtful origin.
- c) Define one sided diseases. Classify them. Explain one sided diseases with only physical symptoms.
- d) What do you mean by Specific remedy? Compare Homoeopathic view of Specific remedy with other systems of medicine.

**Long Answer Question (Solve any 1 from 5, 6, 7) : [1 × 20 = 20]**

- 5) Define vital Force. Explain role of vital force in Health, Disease and Cure.
- 6) Explain - "It is wrong to attempt to employ complex means when simple means suffice".
- 7) Define local maladies. Explain Homoeopathic view and treatment of Local maladies.

**Fourth B.H.M.S. (New) Examination, (Phase - III) Winter - 2021**  
**ORGANON OF MEDICINE-II**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use blue/black ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for Section B.

2. **Short Answer Question (Solve any 4 Out of 6) :-** [4 × 5 = 20]
- a) Therapeutic Sciologists.
  - b) What is the relation of Pathology to Therapeutics.
  - c) What has Homoeopathy to offer Young Man?
  - d) Half acute miasms
  - e) What are the different ways of suppressions of miasms.
  - f) Write down Dr Hahnemann's view about Syphilis.
3. **Short Answer Question (Solve any 4 Out of 6) :-** [4 × 5 = 20]
- a) Logic of Homoeopathy.
  - b) What Roberts says about children who are backward in mind and body.
  - c) Kent's view about Anemnesis.
  - d) Robert's explanation of Sycotic Mind.
  - e) Manifestation of Latent Psora.
  - f) What do you mean by Alteration of remedies.

## DAB01NNNN403-P2

4. **Long Answer Question (Solve any 2 Out of 4) :-** [2 × 10 = 20]
- Explain in detail about Complications of Sycosis in the first state.
  - Explain J H Allen's view about Leucorrhoea.
  - Explain in detail Dr Hahnemann's view about Potentisation.
  - Explain in detail Acute Miasmatic diseases.

**Long Answer Question (any one from Q.5, 6, & 7)** [1×20=20]

- Explain in detail ' Simple Substance'.
- Explain Dr Hahnemann's view about Chronic miasmatic diseases.
- According to Hughes what do you mean by "Similia Similibus"

Fourth B.H.M.S. (New) Examination, (Phase - III) Winter - 2021

CASE TAKING AND REPERTORY

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) All questions are **compulsory**.
  - 4) The number to the **right** indicates full marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for section B.

- 2) **Short Answer Questions (Solve any 4 out of 6) :** [4 × 5 = 20]
- a) Compare and contrast rubrics "Absent minded and Forgetful" with 2 drugs.
  - b) Compare and contrast rubrics "Affection and Affectation" with 2 drugs.
  - c) Write in detail regarding Dr. Hahnemann's efforts in making Repertory.
  - d) Explain in detail about Determinative symptoms and Basic Symptoms.
  - e) Concept of Totality by Dr.Kent.
  - f) Define Case Taking. Write in detail about Acute Case Taking.

- 3) **Short Answer Questions (Solve any 4 out of 6) :** [4 × 5 = 20]
- a) Explain different Methods of Record Keeping.
  - b) Write in detail about Plan and Construction of "A Concise Repertory of Homoeopathic Medicine".
  - c) Define Clinical Repertory. Write in detail about Clinical Repertory by Dr. J.H. Clarke.
  - d) Write in detail about Methods of Repertorisation.
  - e) Write in detail about classification (Analysis) and Evaluation of Symptoms.
  - f) Write in detail about Phoenix Repertory.

**DAB01NNNN404**

- 4) Long Answer Questions (Solve any 2 out of 4) : [2 × 10 = 20]**
- a) Explain in detail about relationship between organon and Repertory.
  - b) Explain in detail about Sharma's Card Repertory.
  - c) Explain in detail about Difficulties in Chronic Case Taking and give it's solutions.
  - d) Define word Concordance. Explain in detail Gentry's Repertory.

**Long Answer Questions (any one from Q.No. 5, 6 &7) : [1 × 20 = 20]**

- 5) Write in detail about Classification of Repertories.
- 6) Explain Kent's Repertory in detail.
- 7) Compare and contrast RADAR and HOMPETH Software.

Third B.H.M.S. (Old) Examination (Phase-III) Winter - 2021  
SURGERY AND HOMOEOPATHIC THERAPEUTICS-I  
(Paper-I)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any 4 Out of 6) :

[4 × 5 = 20]

- a) achalasia cardia.
- b) duodenal ulcer.
- c) amoebic liver abscess.
- d) Hyponatremia.
- e) Lipoma.
- f) carbuncle.

3. Short answer questions (Solve any 4 Out of 6) :

[4 × 5 = 20]

- a) Five indications of phosphorus and lachesis each in haemorrhage.
- b) Five indications of silicea and hep sulph each in abscess.
- c) Five indications of arnica and nat carb each in head injury.
- d) Five indications of iodum and spongia each in goitre.
- e) Five indications of nux vom and kali bi each in gastric ulcer.
- f) Five indications of aepis and berberis each in renal colic.

4. Long Answer questions (Solve any 2 Out of 4) : [2 × 10 = 20]
- Define colelithiasis, give types of gall stones and its management with chelidonium and cardus mur.
- OR
- Give difference between benign and malignant tumour and management of breast tumour with conium and phytolacca.
  - Define wound, mention factors affecting wound healing and give indications of ruta and bellis per in injury.
- OR
- Define and mention type of shock and homoeopathic management of hypovolemic shock with cinchona and camphora.

Long answer questions (5,6,7) (Solve any 1 Out of 3) : [1 × 20 = 20]

- Classification of Burns, Explain in Detail Role of nine and homoeopathic management of burns with apis, urtica urens and calendula.
- Discuss differential diagnosis of haematuria and give its homoeopathic management with lycopodium, sarsaparilla and berberis.
- Discuss miasmatic background of appendicitis and give indications of belladonna, mag phos, and dioscorea in acute appendicitis.

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any 4 Out of 6) :

[4 × 5 = 20]

- a) tinnitus.
- b) plantar fasciitis.
- c) anterior and posterior rhinoscopy.
- d) ophthalmia neonatrum.
- e) traction in fractures.
- f) dendritic ulcer of cronea.

3. Short answer questions (Solve any 4 Out of 6) :

[4 × 5 = 20]

- a) merc-sol in staphyloma.
- b) calc-phos in fractures.
- c) calc-flour in dental fistula.
- d) rhus tox in osteoarthritis.
- e) gelsemium in viral rhinitis.
- f) kali-mur in pharyngitis.

P.T.O.

4. Long answer questions (**Solve any 2 Out of 4**) : **[2 × 10 = 20]**

- a) Describe in detail difference between antrochoanal and ethmoidal polyp. Give indication of phosphorus, tuja in polyp.

OR

- b) Enumerate degenerative diseases of bones. Describe in detail aetiology, clinical features of cervical spondylitis. Give indication of calc-phos, rhus-tox in the treatment of spondylitis.

- c) Give steps for “Root canal therapy” in treatment of dental disease. Give indication of calendula and kali-mur in post-operative treatment.

OR

- d) Describe aetiology, clinical features and complications of sty. Give indication of staphysagria and pulsatilla in management of sty.

Long Answer Questions (5,6,7) (**Solve any 1 Out of 3**): **[1 × 20 = 20]**

5. Classify pharyngitis. Describe aetiology, clinical features, auxillary management of viral pharyngitis. Give indication of belladonna, kali-mur, ignatia for the same.
6. Classify glaucoma. Describe aetiology, pathology, clinical features of “Primary wide angle galucoma”. Give indication of phosphorus, nat-mur and conium in management of glaucoma.
7. Describe aetiology, clinical features and management of acute osteomyelitis. Give indication of silicea, merc-sol and hepar-sulph in the management of osteomyelitis.

Third B.H.M.S. (OLD) Examination (Phase - III) Winter - 2021  
OBSTETRICS & GYNAECOLOGY - I  
(Paper - I)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. **Short Answer Questions (Solve any 4 out of 6):** [4 × 5 = 20]

- a) Oestrogen hormone
- b) Adenomyosis
- c) USG in gynaecology
- d) Barrier method of Contraception
- e) Signs & Symptoms of Menopause
- f) Candidiasis

3. **Short answer questions (Solve any 4 out of 6):** [4 × 5 = 20]

- a) Describe Platina for Dyspareunia
- b) Indications of Kali carb & Senecio at Puberty
- c) Indications of Nitric acid & Carbo animalis for Genital Malignancy

- d) Indications of Alumina & Borax in Leucorrhoea
- e) Role of Kreosote & Iodium for PID
- f) Pulsatilla in PMS

**4. Long Answer Questions (Solve any 2 out of 4) : [2 × 10 = 20]**

- a) Define DUB & describe the role of Phosphrous, Trillium pendulum & Cimicifuga.

OR

- b) Define Fibroadenoma, its clinical features and indications of Bryonia, phytolacca & Conium in breast disorders.
- c) Define Endometriosis, common sites, clinical features, complications and management with 2 Homoeopathic remedies.

OR

- d) Discuss intra-uterine contraceptive device in detail.

**Long Answer Questions (5,6,7) (Solve any 1 out of 3) : [1× 20 = 20]**

- 5. Define Prolapse uterus: write its types, signs and symptoms, complications and management with the help of liliun tig, Murex and Sepia.
- 6. Describe Dysmenorrhoea with respect to-definition, types, clinical features & management with Mag phos, Colocynth, viburnum opulus & Sabina.
- 7. Define Hysterectomy; write its types, describe the procedure & Enumerate complications. Write the role of calendula and Hypericum in post-operative care.

Third B.H.M.S. (Old) Examination (Phase - III) Winter - 2021  
OBSTETRICS & GYNAECOLOGY - II  
(Paper - II)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short answer questions (Solve any 4 Out of 6) [4 × 5 = 20]
- a) Oligohydramnios
  - b) Gametogenesis
  - c) Version
  - d) Lochia
  - e) Caput succidaneum
  - f) Physical features of healthy newborn.
3. Short answer questions (Solve any 4 out of 6): [4 × 5 = 20]
- a) Discuss role of Cantharis and Apis for UTI in puerperium.
  - b) Discuss role of China and Ipecac in Neonatal jaundice.
  - c) Discuss role of Sabina in Hydatidiform mole.
  - d) Role of Cocculus and Nux vomica in ANC.
  - e) Discuss role of Stramonium and Veratrum album for puerperal psychosis.
  - f) Discuss role of Caulophyllum and Secale cor for prolonged labour.

4. Long Answer Questions (Solve any 2 out of 4) [2 × 10 = 20]

a) What is LSCS. Write down its indications and complications.

OR

b) Describe in detail Mechanism of labour.

c) Define Abortion. Write down its types. Write in detail role of Cimicifuga and Chamomilla for threatened abortion.

OR

d) Define PPH. Discuss role of Millefolium and Hamamelis.

Long Answer Questions (5,6,7) (Solve any 1 out of 3) [1 × 20 = 20]

5. Define APH. Write down causes of APH. Define Abruptio placenta. Write down causes, clinical features of abruptio placenta. Discuss role of Arnica and Crocus Sativus for APH.

6. Define Asphyxia Neonatorum. Write a note on APGAR score. Discuss in detail role of Antimonium tart, Carbo veg, Arsenicum album for Asphyxia Neonatorum.

7. Define Hyperemesis Gravidarum. Write down its complications. Discuss in detail role of Phosphorus, Bismuth, Ferrum met, Sepia in Hyperemesis Gravidarum.

**Third B.H.M.S. (Old) Examination, (Phase - III) Winter - 2021**  
**HOMOEOPATHIC MATERIA MEDICA**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any Four out of six): [4 × 5 = 20]
- a) Baptasia-Typhoid fever.
  - b) Write causation and modalities of Bryonia alba.
  - c) Constipation-Nux Vomica.
  - d) Gelsemium-Headache.
  - e) Write physical general symptom of Dulcamara.
  - f) Write mind symptoms of Aconite
3. Short answer questions (Solve any four out of six) : [4 × 5 = 20]
- a) Write modalities of Ars iod.
  - b) Cantharis-in Cystitis.
  - c) Tabacum-Sea sickness.
  - d) Kali Bichromium-Discharges.
  - e) Ferrum met-key note symptoms
  - f) Write mind symptoms of Baryta Carb.

**P.T.O.**

4. Long answer questions (Solve any two out of four) : [2 × 10 = 20]

a) Compare and contrast Bryonia alba and Rhus tox in Rheumatism.

OR

b) Compare and contrast Cactus and Digitalis heart complains.

c) Guiding symptoms of Antim tart.

OR

d) Guiding symptoms of Oxalic Acid.

Long answer questions (5,6,7) (Solve any one out of three) : [1 × 20 = 20]

5. Describe in detail drug picture of Lycopodium.

6. Write Drug picture of Nux Vomica in detail.

7. Describe groups symptoms of Aurum and write drug picture of Aurum met.

Third B.H.M.S.(Old) Examination, (Phase - III) Winter - 2021  
ORGANON AND HOMOEOPATHIC PHILOSOPHY - I (Paper - I)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 out of 6): [4 × 5 = 20]
- a) Special direction in chronic case taking.
  - b) Hufeland's statement.
  - c) Advantages of proving drug on physician-ideal prover.
  - d) Preserver of Health.
  - e) Enantiopathy its therapeutic utility and demerits.
  - f) Significance of Idiosyncratic patient in drug proving.
3. Short Answer Questions (Solve any 4 out of 6) : [4 × 5 = 20]
- a) Favorite remedies.
  - b) Alternating diseases.
  - c) Endemic intermittent fever.
  - d) Experiment of Peruvain bark, Dr. Hahnemann's Scientific Justification.
  - e) Homoeopathic specific remedy.
  - f) Genuine medicine.

**P.T.O.**

4. Long Answer Questions (Solve any 2 out of 4) : [2 × 10 = 20]

a) Instructions by Dr. Hahnemann on Homoeopathic Posology.

OR

b) As Homoeopathic medication had dynamic action, which dietic restrictions and recommendations should be followed in acute and chronic diseases.

c) Explain difference with illustration between primary action that occurs under the influence of every medicine and the reaction or secondary action subsequently effected by the living organism.

OR

d) Chronic disease and it's type.

Long Answer Questions (5, 6, 7) (Solve any 1 out of 3) : [1 × 20 = 20]

5. "I never allow any insane person to be punished by blows or painful corporeal inflictions" Explain Dr. Hahnemann's except on Mental diseases and their treatment.

6. Explain the taller order what Dr. Hahnemann has accorded to the practicing physician, where patient returns to ease by highest ideal ways of cure.

7. Explain Dr. Hahnemann's Human pharmacological experimentation in detail or preliminaries to be attended in investigating the pure effects of medicines on healthy individuals.

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 out of 6): [4 × 5 = 20]
- a) Infinitesimal Dose-Explain.
  - b) Vital Energy and its Universal Application.
  - c) Describe the various types of contributions of Dr. Boger in the field of Homoeopathy.
  - d) Incurable cases and Palliation.
  - e) Life and Contribution of Dr. Hering.
  - f) Life and Contribution of Dr. Boninghausen.
3. Short Answer Questions (Solve any 4 out of 6) : [4 × 5 = 20]
- a) Describe the origin of Psora according to Dr. Robert's
  - b) Explain Susceptibility, Reaction and Immunity.
  - c) Describe the scope of Homoeopathy as explained by Dr. S. Close.
  - d) Characteristic features of Sycosis.
  - e) Write a note on Dr. Hahnemann's Discovery of Chronic Disease.
  - f) Second Prescription and its types.

**P.T.O.**

4. Long Answer Questions (Solve any 2 out of 4) : [2 × 10 = 20]

- a) Justify - "Susceptibility is a pivot around which the whole of Homoeopathy revolves".

OR

- b) Explain the idea of Pseudopsora as given by J.H. Allen.  
c) Explain all the various observations of Dr. Kent in detail.

OR

- d) Define Susceptibility and its role in Potency selection.

Long Answer Questions (5, 6, 7) (Solve any 1 out of 3) : [1 × 20 = 20]

5. Discuss in brief the concept of "Pathology of Homoeopathy".  
6. Explain logic in detail.  
7. Discuss in detail the origin, Presentation and Management of "Psora".

Fourth B.H.M.S. (Old) Examination (Phase-III) Winter - 2021  
MEDICINE & HOMOEOPATHIC THERAPEUTICS - I  
(Paper-I)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 Out of 6): [4 × 5 = 20]
- a) Modes of transmission of HIV.
  - b) Herd Immunity
  - c) Genetic counseling
  - d) Irritable Bowel Syndrome
  - e) Congratulations for liver biopsy
  - f) Frost bite

3. Short answer questions (Solve any 4 Out of 6): [4 × 5 = 20]
- a) Indications of Acid Sulph for Gastritis
  - b) Indications of Glonoine for Heart Stroke
  - c) Indications of Cinchona for Gall stone colic

- d) Indications of Lachesis for HIV infection
- e) Indications of Sambucus Nigra for Allergic cold
- f) Indications of Natrum sulph for Hepatitis.

4. Long answer questions (Solve Any 2 out of 4): [2 × 10 = 20]

- a) Discuss indications for Upper GI. Endoscopy Give indications of two remedies for Dyspepsia.

OR

- b) Discuss causes of Haematemasis. Give indications of two remedies for the same.
- c) Discuss aetiology of Pancreatitis. Discuss in brief limitations of homoeopathy in Acute Pancreatitis.

OR

- d) Discuss clinical features of Emphysema and give indications of any two remedies for chronic exertional dyspnea.

Long Answer Questions (5,6,7) (Solve Any 1 out of 3): [1 × 20 = 20]

5. Define Chronic Bronchitis.

Discuss it's aetiology, clinical features and Homoeopathic management with reference to miasmatic approach.

6. Discuss aetiology and complications of Liver Cirrhosis.

Discuss Homoeopathic management of Liver Cirrhosis with reference to Scope and Limitations.

7. Discuss in detail the clinical features of dehydration.

Discuss homoeopathic management of Chronic Diarrhoea.

Add a note on Auxiliary plan of management of Chronic Diarrhoea.

**Fourth B.H.M.S. (Old) Examination (Phase - III) Winter - 2021**  
**MEDICINE & HOMOEOPATHIC THERAPEUTICS - II**  
**(Paper - II)**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short answer questions (**Solve any 4** Out of 6) [4 × 5 = 20]
- a) Clinical features of Psoriasis.
  - b) Cardiac tamponade.
  - c) CSF in health and disease.
  - d) Causes of Jaundice in new born baby.
  - e) Complications of Gout.
  - f) Depression.
3. Short answer questions (**Solve any 4** out of 6): [4 × 5 = 20]
- a) Give indications of two remedies for Hysteria.
  - b) Give indications of two remedies for Splenomegaly.
  - c) Give indications of two remedies for Jaundice in children.
  - d) Give indications of two remedies for Mumps.
  - e) Give indications of two remedies for Tetany.
  - f) Give indications of two remedies for dwarfism.

4. Long answer questions (Solve any 2 out of 4) [2 × 10 = 20]

- a) Discuss clinical features and causes of Chronic renal failure. Give indications of two remedies for acute cystitis.

OR

- b) Discuss aetiology and clinical features of Iron deficiency anaemia. Give indications of two remedies for Anaemia.
- c) Discuss aetiology and complications of Rabies. Give indications of two remedies for the same.

OR

- d) Discuss differential diagnosis of maculopapular skin eruptions. Give indications of two remedies for Urticaria.

Long answer questions (5,6,7) (Solve any 1 out of 3) [1 × 20 = 20]

5. a) Discuss aetiopathology, clinical features and diagnosis of Addison's disease.
- b) Discuss homoeopathic approach towards the same with scope and limitations.
6. a) Discuss aetiopathology, clinical features and diagnosis of Parkinsonism. Discuss Homoeopathic management of a case of Parkinsonism under following headings.
- b) Acute Prescribing.
- c) Chronic Prescribing
7. a) Define and classify Leukaemia.
- b) Discuss homoeopathic approach towards a case of Leukaemia with scope and limitations.

**Fourth B.H.M.S. (Old) Examination, (Phase - III) Winter - 2021  
HOMOEOPATHIC MATERIA MEDICA - I (Paper-I)**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (**Solve any Four** out of Six): **[4 × 5 = 20]**
- a) Give the liver complaints of chelidonium.
  - b) Give the keynote indications of Acetic acid.
  - c) Give the skin complaints of petroleum.
  - d) Give the physical general symptoms of agaricus.
  - e) Give the characteristic key indications of Calc Ars.
  - f) Give the mentals of anacardium.
3. Short answer questions (**Solve any four** out of six) : **[4 × 5 = 20]**
- a) Give the mentals of Cannabis Indica.
  - b) Give the characteristic keynote symptoms of Cannabis Sativa.
  - c) Give the characteristic keynote indications of Bufo R.
  - d) Give the keynote symptoms of Crotalus Horr.
  - e) Explain the colic of dioscorea.
  - f) Give the GIT complaints of Croton tig.

**P.T.O.**

4. Long answer questions (Solve any two out of four) : [2 × 10 = 20]

a) Compare and contrast Glandular affections of phytolacca and conium.

OR

b) Compare and contrast the heart complaints of cactus G and Digitalis.

c) Compare and contrast female complaints of platina and sepia.

OR

d) Compare and contrast Urinary complaints of Equisetum and Benzoic acid.

Long answer questions (5,6,7) (Solve any one out of three) : [1 × 20 = 20]

5. Give the characteristic indications of Ammonium group and explain the full drug picture of Ammonium carb.

6. Explain in detail the full drug picture of cyclamen.

7. Explain in detail the full drug picture of phosphorus.

Fourth B.H.M.S. (Old) Examination (Phase - III) Winter - 2021  
HOMOEOPATHIC MATERIA MEDICA - II  
(Paper - II)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short answer Questions (**Solve any 4** Out of 6) [4 × 5 = 20]
- a) Colocynthis - Abdomen
  - b) Cocculus indicus - Physical generals.
  - c) Antimonium tart - Respiratory symptoms.
  - d) Lac defloratum - Headache.
  - e) Nux vomica - Modalities.
  - f) Apis melifica - urinary symptoms.
3. Short answer questions (**Solve any 4** out of 6): [4 × 5 = 20]
- a) Caulophyllum - Female.
  - b) Coffea cruda - Modalities.
  - c) Eupatorium perfoliatum - Fever.
  - d) Hydrocotyle - Skin.
  - e) Ranunculus bulb - Chest.
  - f) Psorinum - Physical generals.

4. Long Answer Questions (Solve any 2 out of 4) [2 × 10 = 20]

a) Compare and contrast Helonias and Sabina female.

OR

b) Compare and contrast Sabadilla and Squilla Respiratory affections.

c) Compare and contrast Cina and Chamomilla child.

OR

d) Compare and contrast Bellis per and Ruta injury.

Long Answer Questions (5,6,7) (Solve any 1 out of 3) [1 × 20 = 20]

5. Describe the common symptoms of acid group of medicines and drug picture of Fluoric acid in detail.

6. Describe the biochemic indications of Calcarea phos in detail.

7. Describe drug picture of Antim crud in detail.

Fourth B.H.M.S. (Old) Examination (Phase-III) Winter - 2021  
HOMOEOPATHIC REPERTORY & CASE TAKING

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 out of 6):

[4 × 5 = 20]

- a) Give different sources of Synthetic repertory.
- b) Editions of Kent repertory
- c) Explain Prekentionian Repertories
- d) Need of a Repertory
- e) Describe general and particular symptoms in detail
- f) Explain case taking process with points of case format.

3. **Short Answer Questions (Solve any 4 out of 6):** [4×5=20]
- a) Explain salient features of RADAR software
  - b) Concept of Totality according to Dr. Kent
  - c) Explain Bell's Diarrhoea
  - d) Explain Berridge's Eye Repertory.
  - e) Record keeping and it's importance. Explain
  - f) Explain any five mental Rubrics with their meanings from kent repertory .

4. **Long Answer Questions (Solve any 2 out of 4):** [2 ×10 = 20]
- a) Explain in detail Gentry's Concordance Repertory

OR

- b) Explain in detail Relationship of Repertory with HMM and Organon
- c) Explain Kishore card Repertory in detail

OR

- d) What are the difficulties faced by a physician while taking a chronic case and explain how to overcome them.

**Long Answer Questions (5,6,7) (Solve any 1 out of 3):** [1× 20 = 20]

- 5. Explain Boger Boenninghausen's characteristics and Repertory in detail.
- 6. Explain the Steps of Repertorisation in detail.
- 7. Compare kent Repertory with Boenninghausen Repertory. In detail.

Second B.H.M.S. (2015) Examination (Phase - III) Winter - 2021  
PATHOLOGY, BACTERIOLOGY & PARASITOLOGY - I  
(Paper - I)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 Out of 6):

[4 × 5 = 20]

- a) Pulmonary oedema
- b) Frozen Section
- c) Chemical Mediators of Inflammation
- d) Complications of Blood Transfusions
- e) Caseous Necrosis
- f) Differentiate between healing by primary and secondary intention

3. Short Answer Questions (Solve any 4 out of 6): [4 × 5 = 20]
- a) Chronic Pyelonephritis kidney
  - b) CSF examination
  - c) Seminoma Testis
  - d) Pathology of Rheumatic Heart Disease
  - e) Acute Appendicitis
  - f) Iron Deficiency Anemia

4. Long Answer Questions (Solve any 2 out of 4): [2 × 10 = 20]
- a) Discuss Etiopathogenesis, Gross, Microscopic features and complications of Enteric fever.

(OR) Remove

- b) Define Antigen and Antibody. Describe Antigen Antibody reactions and their applications in diagnosis of various diseases.
- c) Define Cirrhosis. Discuss Alcoholic liver disease in detail.

(OR) Remove

- d) Define Thrombosis and describe it's Etiopathogenesis. Add a note on Fate of Thrombosis.

Long Answer Questions (5,6,7) (Solve any 1 out of 3): [1 × 20 = 20]

- 5. Define infarct. Mention it's types. Discuss Myocardial Infarction with respect to its Etiopathogenesis, pathology and lab diagnosis.
- 6. Define Hypersensitivity reactions. Discuss them in detail.
- 7. Define Neoplasia. Mention it's types. Differentiate between the two. Add a note on Squamous cell carcinoma.

Second B.H.M.S. (2015) Examination (Phase - III) Winter - 2021  
**PATHOLOGY, BACTERIOLOGY & PARASITOLOGY-II**  
**(Paper - II)**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short Answer Questions (Solve **any 4** out of 6): [4 × 5 = 20]

- a) Polio virus
- b) Hydatid cyst
- c) Anaphylaxis
- d) Pathogenicity of C diphtheriae
- e) Lab diagnosis of staph aureus
- f) Dermatomycosis

3. Short Answer Questions (Solve **any 4** out of 6): [4 × 5 = 20]

- a) Differences between bacillary dysentery & amoebic dysentery
- b) Graft versus host reaction
- c) Pathogenicity of W bancrofti

- d) Meningococcus
- e) Differences between exotoxin and endotoxin
- f) Lab diagnosis of rabies virus

4. Long Answer Questions (Solve **any 2** out of 4): [2 × 10 = 20]

- ✓ a) Describe in details of morphology, cultural characters, pathogenicity & lab diagnosis of Pneumococcus. *No change.*
- b) Describe in details of morphology, life cycle, pathogenicity & lab diagnosis of L donovani.
- c) Describe different methods of diagnosis of fungal illnesses.
- d) Describe in details morphology, pathogenicity & lab diagnosis of Hepatitis B virus.

Long Answer Questions (5, 6, 7) (Solve **any 1** out of 3): [1 × 20 = 20]

- 5. Describe in details of morphology, life cycle, pathogenicity & lab diagnosis of E granulosus.
- 6. Describe in details of morphology, cultural characters, pathogenicity & lab diagnosis of S typhi.
- 7. Describe in details of morphology, pathogenicity & lab diagnosis of HIV virus.

2<sup>nd</sup> B.H.M.S. (2015) Examination, (Phase - III) Winter - 2021  
**FORENSIC MEDICINE & TOXICOLOGY**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any 4 out of 6): [4 × 5 = 20]
- a) Write in detail about dactylography.
  - b) Write about legitimacy & illegitimacy, and explain about medico legal aspects related to it.
  - c) Write in detail about hydrostatic test.
  - d) Write about Consumer Protection Act.
  - e) Write about professional secret and privileged communication.
  - f) Exhumation.

3. Short answer questions (Solve any 4 out of 6) : [4 × 5 = 20]
- a) What are war gases? Classify them and briefly explain their action.
  - b) Vitriolage
  - c) Plumbism
  - d) Write a note on Abrus Precatorius poisoning.
  - e) Food poisoning
  - f) Describe signs and symptoms of acute phosphorus poisoning.

**P.T.O.**

4. Long answer questions (Solve any 2 out of 4) : [2 ×
- a) What are the objectives of medicolegal postmortem examination in detail about essential requirements and precautions for conducting postmortem examination.

OR

- b) Define injury, write in detail about Abrasion.
- c) Define drowning, write classification of drowning and describe in detail about postmortem findings and medico legal aspect of drowning.

OR

- d) Write about Criminal abortion and describe in detail about methods in common use to procure criminal abortion.

Long answer questions (5, 6, 7) (Solve any 1 out of 3) : [1 × 20 = 20]

5. Discuss action of poison on the human body, describe different factors that modify the action of poison & write in detail about duties of doctor in case of suspected poisoning.
6. Write in detail about Alcohol poisoning.
7. Explain in detail about Dhatura poisoning

**Second B.H.M.S.(2015) Examination (Phase - III) Winter - 2021  
HOMOEOPATHIC MATERIA MEDICA**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 Out of 6): [4 × 5 = 20]

- ✓ a) Write different ways of Homoeopathic Materia Medica.  
TYPES
- b) Write the modalities and ailments of Aresenic Alb.
- c) Write the sources of Homoeopathic Materia Medica.
- d) Natrum Mur - in mind.
- e) Write the types of Homoeopathic Materia Medica.
- f) Write the guiding indication of Calc - phos.

3. Short Answer Questions (Solve any 4 out of 6): [4 × 5 = 20]

- a) Write the guiding indication of Calc - Sulph.
- b) Write physical generals of Calc - carb.

- c) Write scope and limitations of Homoeopathic Materia Medica.
- ✓ d) Define Homoeopathy and describe various methods of studying Homoeopathic Materia Medica. *NO change*
- e) Write the guiding indication of Apis Melifica.
- f) Define Biochemic System of medicine and its concepts.

4. Long Answer Questions (Solve any 2 Out of 4): [2 × 10 = 20]

- a) Compare and contrast between Bryonia and Rhus - Tox.

OR

- b) Compare guiding indications of Hepar Sulph and Silica.

- c) Compare between Arnica and Baptesia in mind.

OR

- d) Compare guiding indication of Nux - Vomica and China

Long Answer Questions (5,6,7) (Solve any 1 out of 3): [1 × 20 = 20]

- 5. Describe the Drug picture of Natrum - Mur.
- 6. Define Homoeopathic Materia Medica and basic concepts of Homoeopathic Materia Medica in detail.
- 7. Describe the Drug picture of Sulphur.

Second B.H.M.S. (2015) Examination (Phase-III) Winter - 2021  
ORGANON OF MEDICINE

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full marks**.
  - 5) Draw diagrams **wherever necessary**.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for all sections.

2. **Short Answer Questions (Solve any 4 out of 6):** [4 × 5 = 20]

- a) Principles of Drug Dynamisation.
- b) Different types of Acute Disease.
- c) Law of Simplex.
- d) Contribution of Hering to Homeopathy.
- e) Conversion of Boenninghausen to Homeopathy.
- f) Reasons for Medicines being stronger than Natural Disease.

3. **Short Answer Questions (Solve any 4 out of 6) :** [4 × 5 = 20]

- a) Susceptibility by Kent.
- b) Discuss various types of Psychology.
- c) Various steps of inductive logic.

- d) Brousseau's Principles.
- e) Treatment of Suspended Animation.
- f) Different types of Memory and its clinical importance.

4. Long Answer Questions 4 (Solve any 2 out of 4): [2 × 10 = 20]

- Solve any 2 out of a, b, c, d.*
- a) Discuss symptomatology as given by Stuart close.

*Remove "OR"*

OR

- b) Discuss in detail the Knowledge of Physician.
- c) Discuss the Logic of Law of Similars as given in Organon.

OR

- d) Describe the totality of symptom?

Long Answer Questions (5,6,7) (Solve any 1 out of 3) : [1 × 20 = 20]

- 5. What is the concept of Vital Force? What are its qualities? Discuss its role in Life, Health, Disease, Cure and Recovery.
- 6. What are Hahnemann's contributions to medicine? Discuss the various editions of Organon of Medicine.
- 7. Describe the process of Case taking in Homeopathic practice. What is the purpose and Advantages of detailed case taking.

Third B.H.M.S. (2015) (Homoeopathy) Examination, (Phase - III)  
Winter - 2021

GENERAL SURGERY & HOMOEOPATHIC THERAPEUTICS - I

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

SECTION - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) All questions are **compulsory**.
  - 4) The number to the **right** indicates full marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for section B.

2) Short Answer Questions (Solve any 4 out of 6) : [4 × 5 = 20]

- a) Gynaecomastia - its causes, pathology, clinical features and treatment.
- b) Pyloric stenosis -- its causes, clinical features, investigations and management.
- c) Explain about lipoma, its varieties, clinically and its complications and treatment.
- d) Write about Factors influencing wound healing.
- e) Write could abscess, sites, clinical features and treatment. *to be replaced by "COLD"*
- f) Pleural effusion - Causes, classification, clinical features.

- 3) **Short Answer Questions (Solve any 4 out of 6) :** [4 × 5 = 20]
- a) Write about Malnutrition-preoperative and postoperative with indications of Calc phos and Alfalfa.
  - b) Undescended testis with indications of Thyroidinum and Bartya carb.
  - c) Haematuria (only 5 disease condition) with indications of Lycopodium and Sarsparilla.
  - d) Write about Hypocalcemia - with indications of calc carb and calc phos.
  - e) Write about Haemostasis with remedy indications of Hamamelis and Arinca.
  - f) Pyonephrosis - etiology, clinical features, with indications of Hep sulph and Merc.

- 4) **Long Answer Questions (Solve any 2 out of 4) :** [2 × 10 = 20]
- a) Define Hernia: etiology, classification, types and explain about direct inguinal hernia in detail, with indications of nux vomica and calc. carb.
  - b) Write about Blood transfusion, its indications, types of blood transfusion, blood groups and RH factor and its complications, with indication of Calc phos, & Nat mur.
  - c) Define Haemorrhage, its source, classification, its types, clinical features, measurement of blood loss, with indication of Hamamelis, phosphorous.
  - d) Write about Amoebic abscess, its pathology, clinical features, complications and investigations with indications of Hepar sulph and Merc.

**Long Answer Questions (Solve any 1 from 5, 6, & 7) :** [1 × 20 = 20]

- 5) Define cyst. Describe its types, classification. Explain about sebaceous cyst with indications of iodum, Apis m, Thuja.
- 6) Define cholecystitis, etiopathology, clinical features and investigations with indications of lycopodium, Chelidoneum, Cardus Marinus.
- 7) Discuss appendicitis, its types, clinical features, differential diagnosis, complication and management. Write indications for following remedies - Belladonna, Lachesis, Iris tenax.

Third B.H.M.S. (2015) (Homoeopathy) Examination, (Phase - III)  
Winter - 2021

**SURGERY - II (ENT, Ophthalmology, Orthopaedics, Dentistry &  
Homoeopathic Therapeutics) (Paper - II)**

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use blue/black ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full marks**.
  - 5) Draw diagrams **wherever** necessary,
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common book for Section B.

**2. Short Answer Questions (Solve any 4 Out of 6) :-**

[4 × 5 = 20]

- a) Write about Cholesteatoma.
- b) Write about crush syndrome.
- c) Write about Sjogren's syndrome.
- d) Write about Panophthalmitis.
- e) Write about Pterygium.
- f) Write about Brodie's abscess.

**3. Short Answer Question (Solve any 4 Out of 6) :-**

[4 × 5 = 20]

- a) Write about Torticollis (Wry neck) and give indication for Bryonia.
- b) Write about Avascular Necrosis and give indications for Rhus toxicodendron
- c) Write about Chemosia and give indication for Apis mellifica.

**DAB012015301-P-2**

- d) Write about Thrush / Monilia and indications of belladonna.
- e) Write short note on Dentition and give indication for Calc phos.
- f) Write about vocal nodules / Singer's nodes.

**4. Long Answer Questions (Solve any 2 out of 4) :- [2 × 10 = 20]**

- a) Describe about Cervical Rib in detail with indications of Rhus tox, and hypericum.
- b) Define Tonsillitis, explain about Acute tonsillitis, with indication of Phytolacca and Baryta carb.
- c) Describe Dental caries in detail. Give indications for kerosote and Flouric acid.
- d) Explain about Herpes Zoster Ophthalmicus and give indications for Apis m. and Euphrasia.

**Long Answer Questions (Solve any 1 from Q.No. 5, 6 and 7) :- [1 × 20 = 20]**

- 5. Define Epistaxis. Write the causes and Management of epistaxis. Give indications of Bryonia, Ammonium carb and phosphorous.
- 6. Write about Corneal Ulcer - its causes, types. Explain about Mycotic corneal ulcer and Hypopyon corneal ulcer, along with homoeopathic remedies like Euphrasia, Kali bich., Merc. c.
- 7. Describe Supracondylar fracture of humerus in detail and write the management through homoeopathic remedies - Symphytum, Calc, phos., Ruta.

Third B.H.M.S. (2015) (Homoeopathy) Examination, (Phase - III)  
Winter - 2021

**GYNAECOLOGY & OBSTETRICS & OBSTETRICS &  
HOMOEOPATHIC THERAPEUTICS - I**

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use blue/black ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full marks**.
  - 5) Draw diagrams **wherever necessary**,
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer Book for Section B.

**SECTION - B (SAQ) (LAQ)**

2. **Short Answer Question (Solve any 4 Out of 6) :-** [4 × 5 = 20]
- a) Emergency contraception.
  - b) Precocious puberty.
  - c) Tests for Ovulation.
  - d) Secondary dysmenorrhoea.
  - e) Acute PID.
  - f) Oestrogen hormone.
3. **Short Answer Question (Solve any 4 Out of 6) :-** [4 × 5 = 20]
- a) Indications of Kali carb & Senecio at Puberty.
  - b) Platina & Natrum carb in Infertility.
  - c) Indications of 2 remedies for hot flushes at Menopause.
  - d) Pulsatilla for Amenorrhoea.
  - e) Medorrhinum for Chronic PID.
  - f) Borax & Bovista for leucorrhoea.

**DAB012015302-P-1**

4. **Long Answer Question (Solve any 2 Out of 4) :-** [2 × 10 = 20]
- Define DUB & describe the role of Sabina, Trillium pendulum & Platina.
  - Discuss Intra-uterine contraceptive device in detail.
  - Indications of Conium, Calcarea fluor & Phytolacca for Fibroadenoma.
  - Describe the signs & symptoms of Menopause with indications of Graphites, Lachesis & Argentum nitricum.

**Long Answer Question (Solve any 1 from 5, 6 and 7) :-** [1 × 20 = 20]

- Define Hysterectomy; write its types, describe the procedure & enumerate complications. Write the role of Calendula and Hypericum in post-operative care.
- Describe fibroid uterus, write its types, clinical features, complications and management with the help of 3 homoeopathic remedies.
- Define Prolapse uterus; write its types, signs and symptoms, complications and management with the help of Lilium tig, Murex and Sepia.

Third B.H.M.S. (2015) Examination, (Phase - III) Winter - 2021  
OBSTETRICS, INFANT CARE AND HOMOEOPATHIC  
THERAPEUTICS - II

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use blue/black ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full marks.**
  - 5) Draw diagrams **wherever** necessary,
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for section - B.

2. Short Answer Questions (Solve any 4 out of 6) : [4 × 5 = 20]

- a) Missed abortion.
- b) Neonatal reflexes.
- c) Cephalhematoma.
- d) Polyhydramnios.
- e) Aims & objectives of ANC
- f) APGAR score.

3. Short Answer Questions (Solve any 4 Out of 6) : [4 × 5 = 20]

- a) Role of Sabina & Cantharis for Vesicular mole.
- b) Describe 2 remedies for retained placenta.
- c) Viburnum opulus & Secale cor in abortion.
- d) Indications of Belladonna & Veratrum album in Puerperal Psychosis.
- e) Argentum nitricum & Merc sol for Ophthalmia neonatorum.
- f) Phosphorus for Diabetes during pregnancy.

**DAB012015302-P-2**

**4. Long Answer Questions (Solve any 2 Out of 4) : [2 × 10 = 20]**

a) Describe perineal tear & 3 Homoeopathic remedies for the same.

OR

b) Write a note on Lactation & role of urtica urens and Agnus castus in Agalactia.

c) Complications of Anemia during pregnancy with the indications of Alumina & Ferrum phos.

OR

d) Describe Rh incompatibility in detail.

**Long Answer Questions (Any one from Q.No. 5, 6 and 7) : [1 × 20 = 20]**

5. Define pre-eclampsia. Write its clinical features, investigations, complications & management with Apis, Phosphorus & Arsenic album.

6. Define Normal labour & its stages. Describe the mechanism of labour & features of a Pulsatilla female in labour.

7. Define Asphyxia neonatorum. Write its etiology, clinical features, diagnosis & management with 3 homoeopathic remedies.

Third B.H.M.S. (2015) (Homoeopathy) Examination, (Phase - III)  
Winter - 2021

**HOMOEOPATHIC MATERIA MEDICA**

Total Duration : Section A+B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use blue/black ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full marks**.
  - 5) Draw diagrams **wherever** necessary,
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for Section B.

2. **Short Answer Questions (Solve any 4 Out of 6) :** [4 × 5 = 20]

- a) Write down Symphytum - Injury.
- b) Write down ailments from Gelsemium.
- c) Write down modalities colocynth.
- d) Write down respiratory symptoms of Spongia Tosta.
- e) Write down mentals of Nat Mur.
- f) Write down guiding symptoms of Cal phos.

3. **Short Answer Question (Solve any 4 Out of 6) :** [4 × 5 = 20]

- a) Write down guiding symptoms of Nat carb.
- b) Write down mentals of Stramonium.
- c) Write down GIT symptoms of Podophyllum.
- d) Describe indications of conium in glandular affections.
- e) Describe indications of Bovista in female reproductive tract affections.
- f) Describe causation & modalities of Ignatia.

**DAB012015303**

**4. Long Answer Question (Solve any 2 Out of 4) :** [2 × 10 = 20]

- a) Describe in detail sepia lady.
- b) Describe in detail guiding symptoms of Lycopodium.
- c) Compare & contrast urinary complaints of Cantharis & Equisetum.
- d) Compare & contrast joint complaints of Bryonia alba & Rhus tox.

**Long Answer Question (Solve any 1 from 5, 6 and 7) :**

[1 × 20 = 20]

5. Write drug picture of Sulphur.
6. Write characteristics of ophidia group and write drug picture of Lachesis.
7. Explain what is Materia Medica and describe different ways of studying Materia Medica.

**Third B.H.M.S. (2015) Examination, (Phase - III)**  
**Winter - 2021**  
**ORGANON OF MEDICINE**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

Section - B

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answer book for Section B.

2. **Short Answer Questions (Solve any 4 Out of 6) :-** [4 × 5 = 20]

- a) Idiosyncrasy
- b) One sided diseases
- c) Ideal cure
- d) Explain aph.71
- e) Suppression
- f) Antipathy

3. **Short Answer Questions(Solve any 4 Out of 6) :-** [4 × 5 = 20]

- a) Explain concept of susceptibility according to Kents philosophy.
- b) Sick-as per Dr. Kent
- c) What do you mean by Materialism in Medicine?
- d) Drug potential
- e) What is second best remedy?
- f) Difference between Susceptibility, Reaction and Immunity.

**4. Long Answer Questions (Solve any 2 Out of 4) [2 × 10 = 20]**

a) Concept of Cure and Recovery according to Dr.S.Close

OR

b) What happens when two dissimilar natural diseases meet in a body, explain with examples.

c) Describe the qualities of true practitioner of healing art with special emphasis on Knowledge of disease.

OR

d) Explain Second Prescription in details.

**Long Answer Questions (Any one from Q.No. 5, 6 and 7):-[1 × 20 = 20]**

5. What is Remedy Relations? Explain in detail as per Dr. Roberts.

6. Explain in detail the Hahnemannian classification of diseases.

7. What is Diet and Regimen? Explain in detail.

Fourth B.H.M.S.(2015) Examination (Phase-III) Winter - 2021  
PRACTICE OF MEDICINE - I

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.

  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short Answer Questions (Solve any 4 Out of 6): [4 × 5 = 20]

- a) AIDS related complex (ARC)
- b) Down's syndrome
- c) Sleep Apnoea
- d) Hypothermia
- e) Cause of Hematemesis and Malaena
- f) Causes and clinical features of Hepatic Encephalopathy

3. Short Answer Questions (Solve any 4 out of 6) : [4 × 5 = 20]

- a) Indications of Opium in Constipation
- b) Indications of Aconite in Bronchopneumonia
- c) Indications of Hepar Sulph in Liver abscess

- d) Indications of Ant Tart in Bronchitis.
- e) Indications of Nat Carb in Sunstroke.
- f) Indications of Chelidonium in Hepatitis B.

**4. Long Answer Questions 4 (Solve any 2 Out of 4): [2 × 10 = 20]**

- a) Discuss Cholelithiasis with respect to clinical features, complications, miasmatic background and chronic prescribing

OR

- b) Discuss Irritable Bowel Syndrome with respect to causes and clinical features. Add note on miasmatic background
- c) Discuss Pneumonia with respect to Aetiology, clinical features, miasmatic background and indication of two homoeopathic drugs

OR

- d) Discuss in details Hepatitis B with respect to clinical features and complications with concept of susceptibility.

**Long Answer Questions (5,6,7) (Solve any 1 Out of 3) : [1 × 20 = 20]**

- 5. Discuss in detail Ulcerative Colitis with respect to clinical features, investigations, miasmatic understanding and scope and limitations.
- 6. Discuss in details Bronchial Asthma with respect to definition and types, Investigations in detail, scope and limitations, acute prescribing.
- 7. Discuss in details Ascites with respect to causes, symptoms and signs, acute prescription and auxillary mode of treatment

**Fourth B.H.M.S. (2015) Examination, (Phase - III) Winter - 2021**  
**PRACTICE OF MEDICINE - II (Paper-II)**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper.** If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) Use a common answerbook for **all** sections.

2. Short answer questions (Solve any Four out of six): [4 × 5 = 20]

- a) Psoriatic arthritis.
- b) Ichthyosis.
- c) Define and differentiate Marasmus and Kwashiorkor.
- d) Cardiogenic shock.
- e) Clinical features of parkinson's disease.
- f) Mania.

3. Short answer questions (Solve any four out of six) : [4 × 5 = 20]

- a) Belladonna in measles.
- b) Baryta carb in senile dementia.
- c) Muratic acid in scurvy.
- d) Lithium carb in Gout.
- e) Cantharis in Urinary tract infection.
- f) Ignatia in Hyperthyroidism.

**P.T.O.**

4. Long answer questions (Solve any two out of four) : [2 × 10 = 20]

a) Give classification of leprosy with clinical features of each.

OR

b) Describe aplastic anaemia with its miasmatic background and auxillary mode of treatment.

c) Describe clinical features of secondary syphilis with its miasmatic understanding.

OR

d) Discuss causes of Nephrotic syndrome with indications of 2 homoeopathic drugs.

Long answer questions (5,6,7) (Solve any one out of three) : [1 × 20 = 20]

5. Discuss in detail epilepsy with respect to: classification, diagnosis, acute prescription and auxillary mode of treatment.

6. Discuss in detail angina pectoris with respect to :Types investigations, Acute prescription and miasmatic understanding.

7. Describe Addison's disease with respect to clinical features, Addisonian crisis, investigations, acute prescription and chronic prescription.

Fourth B.H.M.S. (2015) Examination (Phase-III) Winter - 2021  
**HOMOEOPATHIC MATERIA MEDICA - I**  
**(Paper-I)**

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All questions are compulsory.**
  - 4) The number to the **right** indicates **full** marks.

  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (**Solve any 4 Out of 6**) : [4 × 5 = 20]
- a) Describe the A/F and modalities of Dulcamara.
  - b) Describe the sources of Homoeopathic Materia Medica
  - c) Describe the guiding indications of Thuja Occidentalis.
  - d) Describe the indication of Gelsemium in Fever.
  - e) Write the Biochemic indications of Kali Mur.
  - f) Describe the indications of Hepar Sulph in Skin affections.

3. Short answer Questions (**Solve any 4 Out of 6**) : [4 × 5 = 20]
- a) Describe the Biochemic indications of Natrum Sulph.
  - b) Describe the indications of Sepia in female reproductive tract affections.
  - c) Describe the glandular affections of Conium Maculatum.
  - d) Describe the indications of Croton Tig in Diarrhoea.
  - e) Describe the characteristic guiding indications of Theridion.
  - f) Describe the A/F and modalities of Natrum Carb.

4. Long Answer Questions (Solve any 2 out of 4):

[2 × 10 = 20]

a) Compare and contrast indications of Digitalis and Cactus Grandiflorus in Heart affections.

OR Remove

b) Compare and contrast indications of Acetic Acid and Apocynum in dropsy.

c) Compare and contrast indications of Spongia and Drosera in cough.

OR Remove

d) Compare and contrast indications of Nux Vomica and Ipecac in Vomiting.

Long Answer Questions (5,6,7) (Solve any 1 out of 3):

[1 × 20 = 20]

5. Describe the characteristic group indications of Acid group of remedies. Write in detail the drug picture of Nitric Acid.

6. Define Homoeopathic Materia Medica. Describe in detail the scope and limitations of Homoeopathic Materia Medica.

7. Describe in detail the drug picture of Calcarea Carb.

Fourth B.H.M.S. (2015) Examination (Phase - III) Winter - 2021  
HOMOEOPATHIC MATERIA MEDICA - II  
(Paper - II)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any 4 Out of 6) [4 × 5 = 20]
- a) Describe the indications of Causticum in Paralysis.
  - b) Describe the guiding indications of Coca.
  - c) Write the ailments from and modalities of Rumex Crispus.
  - d) Describe the indications of Millefolium in haemorrhages.
  - e) Describe the mentals of Coffea Cruda.
  - f) Describe the indications of Mag Carb in female reproductive tract affections.

**DAB012015402-P-2**

3. Short answer questions (Solve any 4 out of 6): [4 × 5 = 20]

- a) Describe the mental symptoms of Lac Caninum.
- b) Describe the guiding indications of Lyssin.
- c) Describe indications of Eupatorium Perfoliatum in fever.
- d) Describe the rectal symptoms of Collinsonia.
- e) Describe the indications of Merc Cyanatus in throat affections.
- f) Describe the child of Sanicula.

4. Long Answer Questions (Solve any 2 out of 4) [2 × 10 = 20]

- a) Compare and contrast Spigelia and Sanguinaria in headache.

OR

- b) Compare and contrast convulsions of Cuprum Met and Artemisia Vulgaris.
- c) Compare and contrast indications of Adonis Vernalis and Crataegus in Cardiac affections.

OR

- d) Compare and contrast Sabadilla and Sambucus in upper respiratory tract affections.

Long Answer Questions (5,6,7) (Solve any 1 out of 3) [1 × 20 = 20]

5. Describe in detail the drug picture of Iodum.
6. Describe in detail the drug picture of Medorrhinum.
7. Describe the group symptoms of Magnesium group of remedies. Describe in detail the drug picture of Mag Carb.

Fourth B.H.M.S. (2015) Examination (Phase - III) Winter - 2021  
ORGANON OF MEDICINE AND HOMOEOPATHIC PHILOSOPHY - I  
(Paper - I)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
- 1) Use **blue/black** ball point pen only.
  - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
  - 3) **All** questions are **compulsory**.
  - 4) The number to the **right** indicates **full** marks.
  - 5) Draw diagrams **wherever** necessary.
  - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
  - 7) **Use** a common answerbook for **all** sections.

2. Short answer questions (Solve any 4 Out of 6): [4 × 5 = 20]

- a) Describe the treatment of 'one sided diseases' as given in 'Organon'.
- b) Describe the probable way in which Homoeopathic cure takes place.
- c) Describe what are 'inappropriately termed chronic diseases', their various causes & suitable examples of each.
- d) Describe what is 'highest ideal of cure'.
- e) Define and describe 'primary' and 'secondary' actions.
- f) Describe what is 'unprejudiced observer'.

3. Short Answer Questions (Solve any 4 out of 6): [4 × 5 = 20]
- Define Homoeopathic <, its causes and treatment.
  - Describe the general precautions to be taken by a physician while treating patients suffering from 'mental diseases'.
  - State the types and describe the treatment of 'intermittent diseases' as stated in 'Organon'.
  - Describe 'mesmerism' in detail.
  - Discuss what Dr. Hahnemann meant by 'mongrel sect'.
  - Describe 'medicinal <', its causes and treatment.

4. Long answer questions (Solve any 2 out of 4): [2 × 10 = 20]
- State and describe the various types of 'mental diseases', their causes and treatment of each type.

OR

- What are the precautions to be taken and guidelines given by Dr. Hahnemann regarding selection of potency and repetition of medicine, in 'Organon'?
- What are 'local diseases'? State their types and treatment.

OR

- What is the importance of nosological diagnosis in Homoeopathy?

Long Answer Questions (5,6,7) (Solve any 1 out of 3): [1 × 20 = 20]

- What are the guidelines given by Dr. Hahnemann regarding storage of Homoeopathic medicinal substances?
- Define & describe 'Homoeopathic Drug proving' as stated in 'Organon'.
- Define and describe 'one sided diseases' with their treatment.

Fourth B.H.M.S. (2015) Examination, (Phase-III) Winter-2021  
ORGANON OF MEDICINE AND HOMOEOPATHIC PHILOSOPHY - II  
(Paper - II)

Total Duration : Section A + B = 3 Hours

Section B Marks : 80

**SECTION - B**

- Instructions :**
