WORLD CANCER DAY

---

*An awareness campaign was organized on World Cancer Day on 4<sup>th</sup> February 2022.*

*An awareness talk focusing on Cervical & Breast Cancer in Women was conducted for female patients in the OPD. Risk factors, warning signs, tools for examination & investigation were highlighted. Pamphlets for the same were distributed and self-breast examination was explained.*

*This was followed by a street play on Cancer Awareness with the example of lung cancer, carried out by students of III & IV BHMS.*

*Dr. Zubin Marolia shared his expertise & insights on Cancer management with Homeopathy and the various challenges faced during the same. An introduction to Mistletoe therapy and various case studies were shared.*

*The sessions for cancer awareness were conducted for the purpose of enlightening students for the diagnosis and management of this disease and to understand the role as a Homeopath.*
