PROGRAM OUTCOME

Program Outcomes (PO) are the knowledge, skills and attitudes that a B.H.M.S. graduate shall have at the time of graduation.

| | |
|-------|--|
| PO 1 | Apply the knowledge of health sciences, fundamentals of Medicine, Obstetrics and Gynaecology, Surgery and Homoeopathic Therapeutics to diagnosis and treatment of diseases |
| PO 2 | Identify, research literature and analyse complex medical conditions reaching substantiated differential diagnosis using principles of pre-clinical, para-clinical and clinical subjects |
| PO 3 | Use researched based knowledge and research methods including investigations, analysis and interpretation of clinical data to diagnose and treat a patient |
| PO 4 | Select and apply appropriate diagnostic tools, resources and modern technological innovations to diagnose complex medical conditions with an understanding of the scope and limitations of homoeopathy |
| PO 5 | Should be able to give a prognosis of the medical condition and provide requisite advice on diet and regimen to the patient in both acute and chronic diseases |
| PO 6 | Should be able to plan a line of treatment, including the first prescription, remedy reaction and subsequent prescriptions for a holistic case management |
| PO 7 | Should be able to advise on ancillary methods of treatment |
| PO 8 | Comply with medico-legal requirements |
| PO 9 | Opine on the cause of death considering the results of accessory investigations |
| PO 10 | Should be able to advise the patient and the community at large regarding prevention of diseases and factors that preserve and promote health |
